Flexco Introduces Spray-Grip™ Spray Adhesive

TUSCUMBIA, Alabama – As Flexco®, a leading manufacturer in rubber, vinyl and ESD control commercial flooring, continues to strive and be the best manufacturer of design-oriented flooring products, we would like to introduce to market the Spray-Grip™ spray adhesive as an added value to our flooring line.

Spray-Grip™ spray adhesive will be for use with rubber tile and rubber sheet only. Spray-Grip™ is a self-contained commercial grade spray adhesive system. It bonds with great speed while maintaining a long open time. Reduces install time and allows for immediate use of the floor after installation. Spray-Grip™ is 50% faster than troweling and can be heat welded in the same day. Spray-Grip™ is water based, has no VOCs, has little to no odor, uses 80% less adhesive on jobs, and allows immediate foot traffic after rolling. Spray-Grip™ is FloorScore® approved, environmentally friendly, non-staining and can be installed with up to 5 lbs. of moisture. This is a product that you have to see to believe.

Spray-Grip™ adhesive covers approximately 170 s/f per can and has a two year shelf life.

FLEXCO®, based in Tuscumbia, Ala., has produced quality resilient flooring for more than 60 years. With distributors servicing all 50 states, as well as Canada, South America, Europe and Asia, FLEXCO's goal is to serve as the leading provider of rubber, vinyl and ESD control commercial flooring.
