Maritime Flooring

IMO RUBBER TILE

The only IMO flooring certified by the U.S. Coast Guard.

Safety. Comfort. Design. Durability. Sustainability. Maintenance and repair. For proprietors of sea- and river-faring vessels, from military crafts to cruise and container ships, these considerations are of utmost importance when choosing IMO flooring.

Flexco IMO Rubber Flooring is built to meet all of these challenges, beginning with international safety requirements. In the event of a fire, our unique formulation with 13% water-based content creates steam rather than smoke, minimizing the release of toxic chemicals. In addition, Flexco is the only flooring certified by the U.S. Coast Guard and carries the EU Wheelmark Declaration of Conformity in safety and performance.

Engineered to perform on sea- and river-faring vessels:

- ~ Exceeds IMO standards for surface flammability, smoke and toxicity
- ~ Designed to withstand wet, humid environments without degradation or mold growth
- ~ Resists slips, stains, abrasion and fading due to sunlight
- ~ Stands up to heavy cargo and equipment
- ~ Sustainably made with premium raw materials and 10% renewable content
- ~ Bromine, phthalate and halogen free to prevent leaching
- ~ Easy to install, clean and maintain
- ~ Meets Buy American Act requirements

Our scores exceeded IMO criteria for every gas tested:

| Gas Detected Smoke Test | Flexco Results (ppm)* |
|-------------------------|-----------------------|
| CO | 136.1 |
| HCl | 0 |
| HF | 0 |
| NOx | 0 |
| HBr | 0 |
| HCN | 0 |
| SO2 | 26.1 |

**Independent laboratory testing 12/18*

Flexco IMO Flooring is ideal for multiple on-board applications.

In addition to meeting critical safety and durability guidelines, Flexco IMO Flooring caters to industry-specific requirements.

NAVAL VESSELS/FREIGHTERS

Engine Room ~ Flexco is the only IMO flooring certified by the U.S. Coast Guard and carries the EU Wheelmark Declaration of Conformity in safety and performance.

Bridge ~ Rubber flooring offers shock, vibration and sound absorption, which enhances comfort and instrument performance while reducing fatigue and excess noise.

Cabins ~ Constructed without PFAs, PVC or brominated flame retardants that can cause irreversible eye, skin and respiratory tract burns.

CRUISE SHIPS/SUPERYACHTS

Entertainment/Common Areas ~ With 100+ colors and patterns to meet any aesthetic, this flooring adds to the visual appeal and overall sense of luxury and comfort across interior spaces. It can also be custom cut for added design and wayfinding capabilities.

Passageways ~ With the ability to withstand water, humidity, fungi and challenging environments, our IMO rubber flooring contributes to smart, functional spaces that will keep passengers and crew safe.

Cabins ~ From the softer, warmer cushioned feel underfoot to outstanding acoustics that limit noise transfer and enhance privacy, IMO provides the high level of comfort essential to creating welcoming passenger environments.
